Budget Chat

A TOTP chat service
made for challenge
chat hackers
in the proto-hackers
challenge series.

Source code for the
chat server.

What would like to submit?

Introducing DuckSpeak, built
and maintained by the
Ducklings' team.

DuckSpeak makes it easy to
generate speech from text
using ducks.

It's a simple API that takes
text and returns a speech file

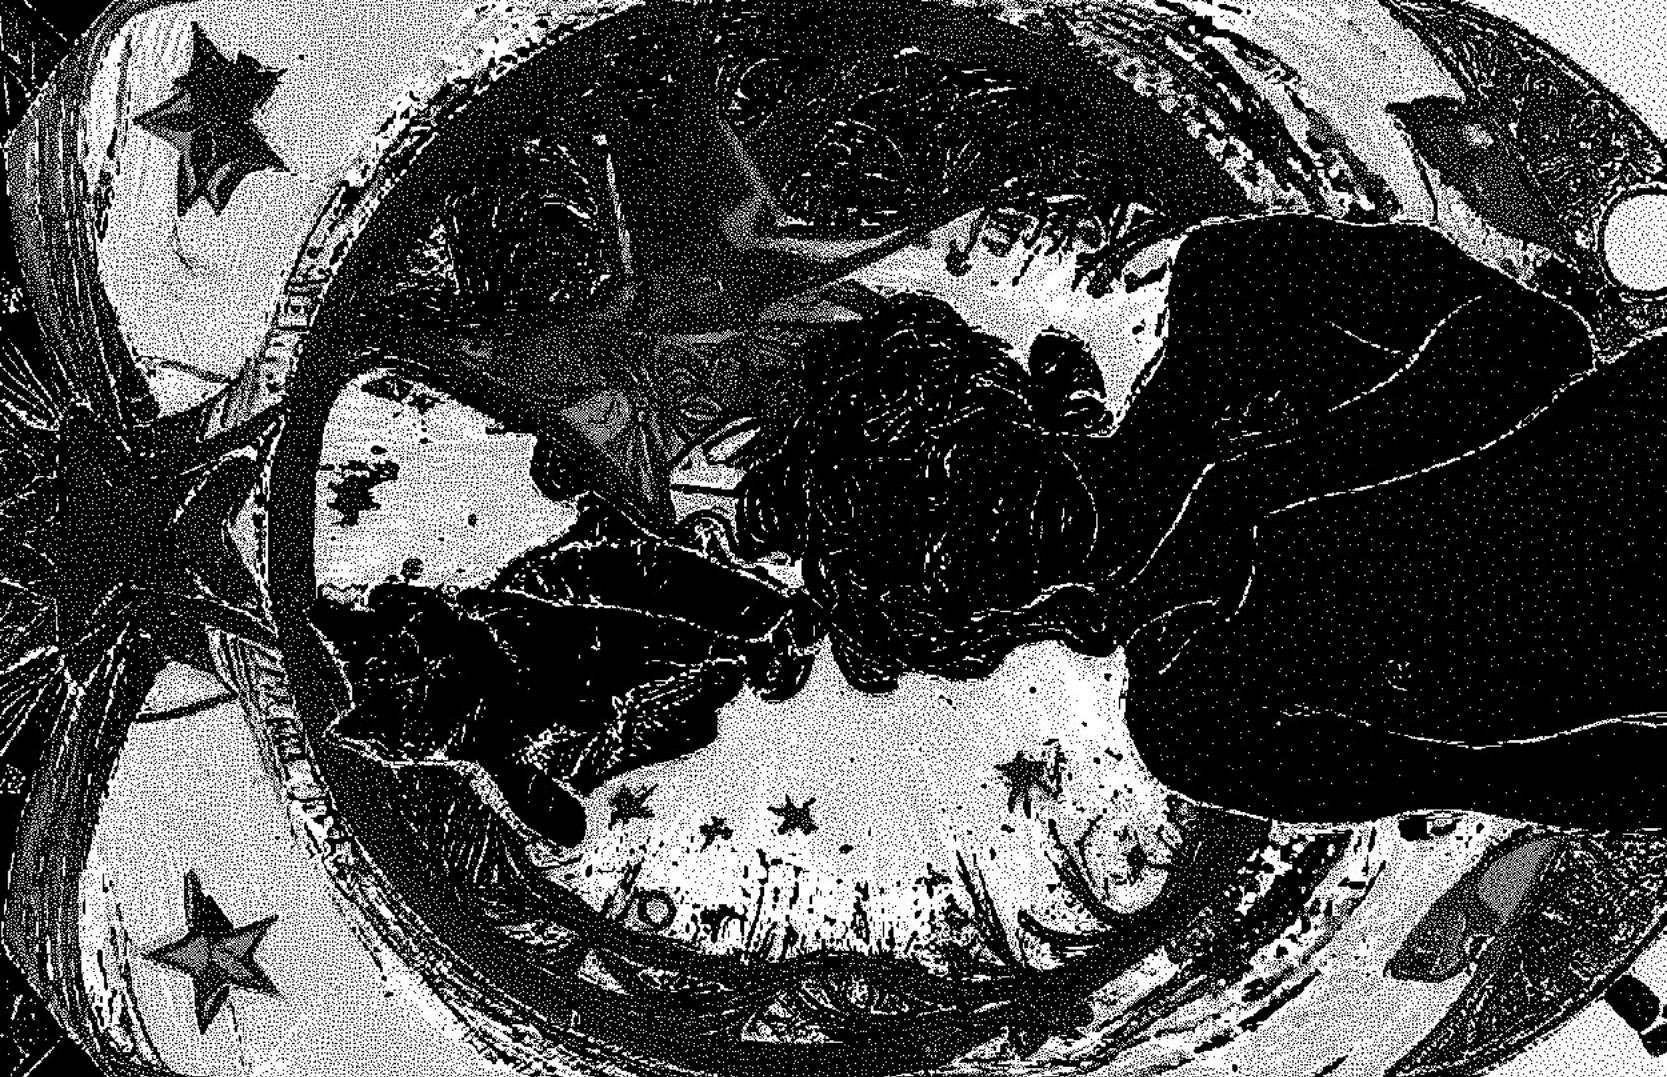

that sounds like a duck
speaking the text.

QuackSpeak

Text-to-speech
using ducks.
